PRESS RELEASE

## **TMK ships the first batch of casing pipe with TMK UP MAGNA premium threaded connections to LUKOIL**

TMK, one of the world's leading producers of tubular products for the oil and gas industry, shipped the first batch of casing pipe with TMK UP MAGNA premium threaded connections and GreenWell lubricant-free coating to LUKOIL. The pipes were successfully sunk at the Y. Kuvykin field in the Caspian Sea with TMK supervisors' involvement.

The shipment was a part of the comprehensive programme to supply the entire casing, made of TMK's premium casing pipe with GreenWell lubricant-free coating, to the consumer.

TMK UP MAGNA is a premium threaded connection for 340–508 mm casing pipe. TMK UP MAGNA can be used in wells as surface casing. These connections have additional retainers to prevent excessive torsion during assembly and a specific thread profile to ensure easy, safe and fast assembly of large diameter casing pipe. In 2016 TMK's share in the premium threaded connections segment of the Russian market reached 76%.

For more information on TMK UP premium connections, visit the dedicated website at <http://www.tmkup.com/>.
