PRESS RELEASE

TMK is awarded first INTERGAZCERT certificate of quality

Dmitry Pumpyanskiy, Chairman of TMK's Board of Directors, took part in the regular meeting held in Saint Petersburg by Alexey Miller, Chairman of Gazprom's Management Committee, for the heads of major Russian producers of tubular products.

Alexey Miller awarded Dmitry Pumpyanskiy one of the first quality management certificates under Gazprom's new Voluntary Certification System, INTERGAZCERT, for TMK's Volzhsky Pipe Plant.

The new system significantly streamlines the process of confirming the compliance of products, works, services and management systems with national standards, as well as Gazprom's corporate standards. Specifically, it helps ensure stable properties and improve the quality of supplied products.

"The INTERGAZCERT system is an innovative framework that offers a new level of product quality assurance for Gazprom and sets even higher standards for pipe producers. The fact that Volzhsky Pipe Plant has become one of the first enterprises to obtain the new certificate once again confirms TMK's leadership as supplier of reliable tubular solutions for the gas major," said Dmitry Pumpyanskiy, Chairman of TMK's Board of Directors.
