PRESS RELEASE

TMK takes part in the 2018 Offshore Technology Conference

TMK, one of the world's leading producers of tubular products for the oil and gas industry, has taken part in the 2018 International Offshore Technology Conference (OTC), Houston, USA.

At the event, TMK showcased its full range of TMK UP premium threaded connections used in oil and gas wells operating in adverse conditions, including offshore projects, and directional and horizontal drilling. Using an interactive display TMK introduced visitors to its latest technologies, and the entire range of the Company's products.

The TMK delegation was led by Vyacheslav Popkov, TMK's First Deputy CEO, and included Piotr Galitzine, CEO of TMK's American division, Adrian Popescu, CEO of TMK's European division, and other senior managers and experts from the Company. At the Company's stand TMK representatives gave technical presentations highlighting the Company's newest products for the oil and gas industry, including vacuum insulated tubing (VIT) and high-torque premium connections.

TMK hosted a reception attended by around 170 of its partners and clients, including senior management of leading oil and gas companies.

Vyacheslav Popkov said: "TMK's participation in the OTC exhibition for the ninth consecutive year reflects our commitment to the North American market which is of strategic importance to the Company. This year our participation was particularly successful".

According to Piotr Galitzine, the Company and its divisions are actively developing the production of new high-tech pipe products. He noted: "TMK's American division is extending its offering of premium connections, for example to include a new TORQ series with high-torque capability. Our customers are benefiting from our increasingly efficient and cost-effective solutions which enable their businesses to become more profitable".

OTC is one of the key events in the global oil and gas industry. Participants discuss innovation and the development of technology for drilling, exploration, production of hydrocarbons and environmental

protection. This year, over 61 thousand people from over 100 countries attended the conference held from April 30 to May 3, with more than 2,300 companies from 44 countries participating in the exhibition. The conference and exhibition have been held annually since 1969.

TMK (www.tmk-group.com)

TMK (LSE: TMKS) is a leading global manufacturer and supplier of steel pipes for oil and gas industry, operating 27 production sites in the United States, Russia, Canada, Romania, Oman and Kazakhstan with two R&D centers in Russia and the USA. In 2017, TMK's pipe shipments totalled 3.8 million tonnes. The largest share of TMK's sales belongs to high margin oil country tubular goods (OCTG), shipped to customers in over 80 countries. TMK delivers its products along with an extensive package of services in heat treating, protective coating, premium connections threading, warehousing and pipe repairing.

TMK's securities are listed on the London Stock Exchange and on the Moscow Exchange MICEX-RTS.

TMK's assets structure by division:

- Russian division:
 - Volzhsky Pipe Plant;
 - Seversky Tube Works;
 - Taganrog Metallurgical Works;
 - Sinarsky Pipe Plant;
 - TMK-CPW;
 - TMK-Kaztrubprom;
 - TMK-INOX;
 - TMK-Premium Service;
 - TMK Oilfield Services.
- American division:
 - 11 plants of TMK IPSCO;
 - TMK Completions.
- European division:
 - TMK-ARTROM;
 - TMK-RESITA.
- Middle East Division:
 - TMK GIPI (Oman).
