PRESS RELEASE

TMK supplies pipes to transport gas from the UAE's new field

TMK has supplied seamless steel pipes to the Sharjah National Oil Corporation (SNOC) to transport Mahani Gas production to SNOC Sajaa Gas Plant in Sharjah, UAE. The shipment totaled over 5 thousand tonnes.

The 16" (406.4 mm) pipe produced at TMK's Volzhsky Pipe Plant is intended for use in aggressive environments. The 3LPP coating pipe was used to construct a 22 km pipeline to feed Mahani field production to a gas processing plant.

Under the integrated contract between the two companies, TMK has also supplied SNOC with other structural components and equipment used in pipeline installation.

"The UAE energy companies are TMK's key customers in the Middle East. We have built a strong reputation as a supplier of tubular products for various purposes, including steel line pipe and premium connections. We are proud to participate in the development of the first onshore gas field in Sharjah in 37 years.

This is our first collaboration with SNOC, and it has enabled our expansion in the UAE market. Despite significant transportation restrictions due to the pandemic, we were able to deliver all shipments strictly on schedule," said Vladimir Oborsky, TMK's Vice President for Sales.

In January 2021, Sharjah National Oil Corporation (SNOC) and its partner Eni announced the start-up of production from the Mahani-1 gas well, marking the commencement of gas production from the Mahani Field, in Sharjah Area B. The announcement came within only one year of the discovery of gas in the field, labelled as the first new onshore discovery in Sharjah for 37 years.

TMK (www.tmk-group.com) is a global manufacturer and supplier of steel pipe for the oil and gas industry, one of the world's three leading pipe producers. It operates production sites in Russia, Romania and Kazakhstan, and has two R&D centers in Russia. High margin oil country tubular goods (OCTG) account for the largest share of TMK's sales. The Company has expertise in shipping its products to customers in over 80 countries and offers a wide range of services in heat treating, protective coating, premium connections threading, warehousing and pipe repairing. TMK's shares are listed on the Moscow Exchange.
